## EXCELLENCE IN REFRIGERATION FINALIST

**Heatcraft Australia is proud to be nominated as an AIRAH Award finalist in the category of Excellence in Refrigeration for the Optus Stadium project. Heatcraft shares the nomination with Goff's Refrigeration and Air Conditioning.**

The world-class Optus Stadium in Perth WA features the latest innovation in design, construction and technology and has made its mark as one of Australia's top sporting and entertainment venues.

The project team demonstrated excellence in refrigeration delivering an entirely customised solution designed to achieve TEWI reductions of 48% and energy savings of 3% compared to conventional refrigeration system design.

The project encompassed the design, engineering and installation of leading refrigeration technologies to service the stadium's extensive cold chain requirements. Equipment specifications evolved throughout the project adding complexity, requiring Heatcraft Australia and Goff's Refrigeration to adapt and accommodate. They overcame project challenges with a whole of business approach – harnessing the full strength of the Heatcraft technical and sales support team.

Winners will be announced at AIRAH Awards gala dinner in Melbourne on November 15.

Tony Gleeson, M.AIRAH sees the awards program as a catalyst for the HVAC&R industry to reach ever greater heights of excellence amongst a period of tremendous transformation.

“The AIRAH Awards offer a chance to acknowledge and to celebrate the industry's progress and performance. All of the finalists have achieved a standard of excellence that deserves recognition.”

Heatcraft is proudly an AIRAH Awards Sponsor of the Excellence in Sustainability category.
