

KEEP COOL

It's all at Heatcraft

Want to grab your Lennox[®] HVAC system and RefacTM accessories from the one place? No sweat.

Meeting your customer's climate control needs this summer couldn't be easier than with the complete range of Lennox HVAC systems and Refac parts and accessories exclusive to Heatcraft.

All Lennox equipment is competitively priced and offers the latest energy-saving technology with ratings up to 3 stars, which exceeds the current stringent MEPS compliance standards. Lennox units are built tough, undergo extensive factory testing and are backed by a comprehensive customer warranty, so you can install a Lennox unit with the confidence that it will do the job. Choose from both fixed speed and inverter models as well as window units and DC inverter ducted split systems.

The Refac range includes high quality and great value brass & copper fittings, pair coil, PVC pipe ducting, soft drawn copper tube and mounting brackets.

So this summer, keep cool with the help of Lennox and Refac - available across the entire Heatcraft network.

Visit heatcraft.com.au or call **13 23 50** for more information today.

Lennox and Refac – Durable, cost effective solutions designed with today's environment in mind
